G 11a

One day I was walking home from school, and I came upon a carpet it was blue and red like a dragon clore. When I found it, it was all messed up it had a big whole on the side of it and I didn't no where it came from. When I saw the messed up carpet I decided to take it home and fix it back to help. First I had to sew the giant whole on it's side. When I fixed the whole up for a second I thought It moved but I must of been wrong. When I turned around I heard a frightening sound when I turned around the carpet was moving and flying like it had a mind of it's own, I thought it was neat. When I found out the carpet can fly I thought I was dreaming but I wasn't. When I found out that the carpet was a flying carpet I asked it can you take me somewhere and It shook it's feathers up and down so off we went. I asked if the flying carpet can take me to the rain forest it said yes. When we were travelling to the rain forest we saw blue butterflies and a panda bear and more exciting things we also saw giant trees that looked liked they can touch the puffy clouds. We also saw monkeys a flying squirrel that flew from one tree to the other it was liked magic. We also saw lots of birds like blue ones, and red, and yellow to they looker dike little rainbows flying in the air when me and the carpet got tired we layed by a big oak

tree we were laying there looking at the squiggley clouds one looked like a pirates hat and the other one looked like a zebra it was amazing. When we got up again I got one of the flying carpets back and we flew off to another spot when we got there we saw panda bears, monkeys, birds and snakes they were all eating the panda ate bamboo the monkeys ate bananas and the birds ate seeds and the snakes ate some nasty eggs. When it got late we had to go back home and go to bed. When me and the carpet got home my mom asked what did you do today I told her nothing I thought it could be me and the carpets secrets.

Score Point: 3

This response reflects a limited degree of proficiency in narrative writing skills. The writer tells a story about finding a flying carpet and provides details to illustrate key ideas. However, numerous misspellings cause some confusion. In addition, the pattern and accumulation of sentence structure errors at times force the reader to stop and read for comprehension. These problems prevent the response from earning a higher score.
